

## Infosys Syllabus 2024

This page discusses the Infosys Exam Syllabus. The different sections of the Infosys Exam are Mathematical Ability, Pseudo Code, and Pseudo Puzzles. Candidates will get a total of 65 minutes to attempt the examination.

## Infosys Exam Pattern

Number of Questions - 54 Questions

Duration of Exam- 1 hour

The topics covered in the Infosys section are:

## Infosys Syllabus 2024

Infosys Syllabus of different sections is added below for your reference. Candidates can check it out.

### Mathematical Ability

- Percentages
- Ratio and Proportion
- Profit and Loss
- Interest (Simple and Compound)
- Time and Work
- Mensuration (Areas and Volumes)
- Algebra (Equations, Inequalities, Functions)
- Coordinate Geometry

### Logic Section

- Analogy
- Series
- Pattern Completion
- Coding and Decoding
- Classification
- Statement and Arguments
- Logical Games
- Puzzles
- Venn Diagrams
- Family Tree Problems
- Assumptions and Inferences
- Strengthening and Weakening Arguments
- Paradoxes

- Logical Fallacies
- Logical Games
- Data Sufficiency

## Verbal Ability Section

- Statement and Conclusion
- Statement and Assumptions
- Cause and Effect
- Course of Action

## Pseudo Code Section

- C
- Python and
- C++
- Algorithms
- Data Structures

## Pseudo Puzzles

- Algorithm Design
- Linear and binary search
- Bubble sort, selection sort, insertion sort
- Merge sort, quick sort
- Sorting algorithms analysis
- Pattern recognition
- Logical deduction
- Spatial visualization
